

REMARKS

The claims are amended to contain only elected matter.

Claim 46 is now directed to elected matter.

The rejoinder of the withdrawn process of preparation claims and the method of treatment of thrombosis claims is respectfully requested. All these claims are dependent on the allowed/allowable claims.

There are a large number of references disclosing a nexus between factor Xa-inhibition and antitrombotic activity. See, e.g., the specification from the bottom of page 3 to the end of page 5. Moreover, a simple google search also provides hundreds of references to the same end.

If any issues remain, applicants request that the Examiner contact the undersigned for the expeditious resolution thereof.

The Commissioner is hereby authorized to charge any fees associated with this response or credit any overpayment to Deposit Account No. 13-3402.

Respectfully submitted,

/Csaba Henter/
